Shouldn't take that long. I have to write up a justification for the Forum in a way that makes Barnes and/or Kathleen NOT want to attend, but worthy of EPA being represented. Hoping it will be Ron and me. I need additional info from you on what you would like EPA to do.

**Subject:** WM Forum Invite

Cheryl,

Here is the invitation/registration to the WM Forum. You can share this with others, as well.

<http://www.wm.com/thinkgreen/sustainability-forum.jsp>

Two areas where I'd like to request your involvement:

- Thursday afternoon discussion with Cities of the Future panelists, National League of Cities delegates.
- Friday morning Ameripen "Salon", discussing supporting a cost effective circular packaging recovery system, contamination, new recycling technologies (chemical recycling), goal setting, etc. We are going to try to do this at ASU, if Kyla can get a room. Would you be willing to help facilitate or participate in this?

It feels like we have a lot of interest early in the event this year. Be sure to look on the website for hotel recommendations when you register.

Susan
